East Syracuse, NY 13057

Dear Marvin Labbate,

We are writing this letter to extend our appreciation for providing our family an enriching and rewarding karate and kobudo experience. We are impressed that our children are benefiting not only by the cultural experience your organization has to offer but a solid foundation in morals and self-confidence. Your organization has done a commendable job in being creative and innovative in your instructional classes as well as being personable at the individual level.

We are also impressed by your openness and willingness to improve the quality of the programs you offer. The adult program is especially impressive. The instructors are very knowledgeable about the principles, techniques and historical information that we find refreshing.

Best wishes in your organization's continued success. And, again we extend our heartfelt appreciation for what you've done for our family to date.

Sincerely,

Ken S. Yonemura, MD
